PANASONIC LAUNCHES NEW JAPANESE-STYLE 3-IN-1 CLEANSING TOOL

PATENTED MICRO-FOAMING TECHNOLOGY

PARIS - NEW YORK, 30.10.2015, 19:37 Time

USPA NEWS - The new Panasonic Micro-Foaming Cleansing Device (EH-XC10-N) is a facial beauty tool that offers three ways to cleanse skin. The Warming Makeup Removal Plate uses dual temperature settings and smoothly glides across skin to help to loosen waxy, hard-to-remove makeup when used with a soothing...

The new Panasonic Micro-Foaming Cleansing Device (EH-XC10-N) is a facial beauty tool that offers three ways to cleanse skin. The Warming Makeup Removal Plate uses dual temperature settings and smoothly glides across skin to help to loosen waxy, hard-to-remove makeup when used with a soothing oil or cream cleanser.

Two brush attachments are included: the Japanese-style Soft Bush and the Pore-Targeting Silicone Brush. The Japanese-Style Soft Brush uses ultra-soft, tapered bristles and rotates 360-degrees, to help cleanse dirt and oil from skin and pores. The Pore-Targeting Silicone Brush uses a fast rotation and smooth up-and-down movement to provide targeted cleansing, twice weekly, of areas like around the nose or chin.

The tool's patented technology is designed to agitate a user's favorite foaming cleanser, creating a rich, micro-foam that reaches deep into pores for effective skin cleansing. This luxurious micro-foam fills the Japanese-style Soft Brush to easily apply cleanser to skin and gently lift away dirt and impurities from pores and skin.
